### More Ideas For Discovering Local Area Resources

**Local Area Colleges and Universities:** Colleges and universities in your area will probably have resources that you can use for research. Their resources may include anything from faculty expertise to students looking for research opportunities in the form of an internship. By contacting the departments appropriate to your research at local colleges or universities, you can also discover other resources in your community.

**Small Business Feasibility Studies:** As part of their feasibility studies, new businesses in your local area may have conducted community surveys that you could use as a resource for your data collection.

## CHECKLIST: DEVELOPING AN EVALUATION PLAN

Take stock of your current situation. Individual members of the evaluation team can complete the checklist, and their responses can be discussed as a group. Refer back to these responses as your evaluation plan progresses.

YES	NO	
<b>Stakeholder and Youth Involvement</b>		
		Do we make intentional efforts to involve relevant stakeholders?
		Have we identified ways to involve all stakeholders in the evaluation?
		Do we actively seek ways to involve youth in the evaluation?
		Do we provide opportunities for youth to feel welcomed and respected in our evaluation design process?
		Can we enhance youth leadership skills through the evaluation?
		Have we identified barriers to involving youth in evaluation?
<b>Goals and Outcomes</b>		
		Do the goals of the evaluation reflect our mission and program activities?
		Are the evaluation activities realistic given our available resources?
		Do the outcomes outlined in the logic model (theory of change) reflect our core activities?
<b>Data</b>		
		Will the evaluation plan gather new and useful data?
		Will we be able to use the data that we gather?
<b>Staffing</b>		
		Have we identified core staff to conduct and lead the evaluation effort?
		Does the organization support the roles of the staff leading the evaluation?
		Are we making time for these staff to fully carry out the evaluation activities?
